Hello, and welcome to Everybody's Tarot!

Everybody's Tarot is designed to be simple, intuitive, human-free, accessible, and easy to use. The world is full of beautiful, intricate decks filled with gorgeous layers upon layers of deeply esoteric symbolism and rich, complicated, spiritually-historical imagery.

This is not one of those decks.

I designed this deck as part of my personal practice, in order to find what I felt to be the simplest core messages of each card. In the name of accessibility and simplicity, I often stray from traditional imagery. My Chariot, for instance, is a skateboard. Death is a butterfly.

For the courts, I chose characters that felt, to me, like they embodied the energy of the card. Kings carry the strength and presence of dragons. Queens hold the beauty and majesty of the unicorn. Knights have antlers to show their bold nature, and Pages feel young, fresh, and ready for something new.

Ultimately, this deck is designed to take away complications and barriers, and to make personal interpretation easy.

Despite my adaptations, the deck remains true to core Tarot traditions and is infused with a great deal of love and respect to the practice.

This is only a short guide, and I encourage exploring a variety of sources on your journey, keeping your intuition and heart at the centre. Your journey will be your own, and thank you for including this deck in your path.
